Mr. Cris Anderson, Manager
Environmental Affairs
L.E. Carpenter
Suite 3600
1301 East Ninth Street
Cleveland, OH 44114-1824

Dear Mr. Anderson:

Re: L.E. Carpenter
Amended ACO signed September 26, 1986
Supplemental Sampling Plan, July 13, 1990

The New Jersey Department of Environmental Protection (Department) has reviewed the Supplemental Sampling Plan and the Quality Assurance Plan for L.E. Carpenter Facility, Wharton, Morris County, New Jersey, dated July 13, 1990 and finds that they include the Department's comments and are acceptable with a clarification. The requirement of analyses for TAL metals on samples of surface water and sediment from the Rockaway River south of MW-4 were omitted from the text and from Table 3-3, however, but are included in the analytical summary Table 3-2; please insure that the TAL metals are among the analytes. The plan is acceptable with this condition.

Please make your preparations for the field operations and submit a sampling schedule to the Department at least two (2) weeks before they commence.

Should you have any questions you may contact me at (609) 633-1455.

Very truly yours,

Edgar G. Kaup, P.E., Case Manager
Bureau of Federal Case Management
